

Peak Rescue Institute

Registration Form and Cancellation Policy

Our courses fill quickly and completely. It is always a good idea to contact us early to secure reservations. Promptness will increase your opportunity to secure a place on the class roster, as well as expeditious delivery of course manuals and materials. We encourage you to make plans early. With that in mind, we have the following policy. Please contact us with any questions.

Course Tuition: \$1,300.00

This price includes **meals, camping fees, tuition, course manual and materials, and use of team equipment. We accept VISA, MasterCard, check, money orders or purchase orders.**

Prompt Payment Discount

If **FULL** tuition (or signed contract/purchase order from a government agency) is received 60 days prior to the course start date, we will offer a prompt payment price of **\$1100.00**.

Specialist Course Policy

Participation in our Specialist course requires successful completion of a pre-course evaluation of skills. This is for the benefit of the registrant and their fellow students. Complete information regarding the evaluation will be sent and we encourage any potential Specialist student to call with any questions. Students who do not pass the pre-course evaluation will automatically be registered in the concurrent Technician course, which begins soon after the evaluation process. By registering in the Specialist course, the prospective student and/or their agency consents to participation in the Technician course in the event that the student does not pass the pre-course evaluation. No Refunds will be given for students who wish to leave the course instead of being enrolled in the concurrent Technician course.

The Fine Print

We will accept a signed purchase order or contract from a government agency in lieu of a credit card, check or money order, and we recognize this as a promise to pay. The same restrictions and policies will apply to contracts, purchase orders and money orders or checks. Full tuition is required to reserve your spot. Course Manual and Registration packet will be sent, upon receipt of your tuition. If you cancel your reservation, you will forfeit the tuition. No refunds will be given for any reason. Because we schedule instructors and pay logistical costs based upon student enrollment, we are unable to offer refunds for any cancellations. We highly recommend trip insurance. It is inexpensive and is available through many agents. Insurance can be purchased on the internet and can be found by using an internet search for "trip insurance." Check their policies to see about coverage. This is an affordable way to protect your investment.
